—It is likely that the next congress will decide to let each postmaster take care of dead letters instead of sending them to Washington. If such legislation comes to pass each postmaster will have the privilege of opening dead letters that accumulate in his office and then sending such letters back to the writers.

—If a husband will not let his wife kiss him, then she is entitled to a divorce, decided Judge Walter A. Powell in the circuit court at Independence, in the case of Mrs. Mary Lyle Willis, against Archie C. Willis. "When I would attempt to fondle and kiss him he would call me silly and tell me to go away," testified the woman. Judge Powell immediately granted a decree.

—The laws of most of the states say that farmers shall cut the weeds that grow on the public highway alongside their farm. Strange to say, some farmers kick on this law. It has even appeared to us that weeds growing outside the fence is as much of a pest as a weed growing on the inside. It ought not to be necessary to compel the cutting of roadside weeds by law--land owners should be willing enough to do it to get rid of the weeds.

—W. W. Dawson, who has been here visiting his brother, B. H., has concluded to stay, and began services with Chas. J. Kooek, our clothier. Mr. Dawson is an experienced clothing man, and that experience has told him what good clothes are, and finding them here at Kooek's place, he just closed a deal, and will be ready to talk "shop" to all. We welcome him, and believe he will "fill the bill" in every way.

—When you pull down the town, in which is your home, you are pulling down yourself, and when you build up you are building up yourself and your neighbor. Try and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm and will cost you nothing; and above all patronize your home institutions.

—W. F. Davis, whose ranch is just below Forest City, but resides in St. Joseph, captured several blue ribbons at the St. Joseph stock show, last week. He took first on earload lot of his thin rinds, 250 to 350 lbs; and also first on 200 to 250 lbs; and first on champion load. He took third on Hampshire boar, "Gold Gem's Model" and third on his senior yearling, "Beythedale Duke;" second on his senior "Pat Maloy's Choice." He took second on aged sow, "Malinde." Second on get of sire, "Pat Maloy." First on produce of sow. Second on aged herts.

—This has been a summer of scant water supply, both for the soil and the wells. Wells that "never have been known to go dry before" have winked out this summer, and on many farms where there has been no permanent supply of water, good wells have been obtained. Each dry season brings in more good wells. Necessity is the mother of invention, and when it becomes necessary to have water many folks have made a determined effort to get it, and permanent wells are the result. Others have dug and failed, not only once, but time after time.

—"Don't grumble," is the text of a lay sermon in the Spring Hill New Era. "The most unfortunate class of people living upon this green earth are the grumblers. They rob home of its joys, society of its dues, and themselves of the best things of life. From the days the children of Israel 'grumbled' and were sent on their tedious wanderings for forty years in the wilderness, up to the present hour the world has been full of grumblers. It is too hot, too cold, too wet or too dry. People in reasonable circumstances have visions of the poor house, while the rich grumble that they can't get rich faster."

—When Jonas Watson was in Oklahoma, last fall, visiting his sister, Mrs. D. P. Lyons, he brought home with him two ears of corn, which is named "Mexican June." Part of this corn was planted by Loren Crittenden, one mile south of Oregon, on the Samuel Spurrier land. It was planted on the 3rd of June, in an orchard among tall trees, and grew to a height of 14 feet 8 inches, and it is 9 feet 4 inches to the first ear. It is a white variety and the ears are large and perfectly developed, and nearly every stalk has two ears. It can be seen at Charley Kooek's. He will take the stalks and ears to the Sedalia State Fair.
